

About Your Trident HD System Cover

Enclosed in this packaging is the cover for your Trident® HD specimen radiography system. (See the adjacent figure.)

This cover is designed to help protect the system from dust and other contaminants under normal storage conditions.

There are no special cleaning requirements for the flexible polyurethane polyester fabric. Store the cover in a cool, dry area when not in use.

Be sure that the system is off before using the cover.

Trident HD system cover

Caution:
Do not use this cover while the system is ON.
