OUTPATIENT SETTING

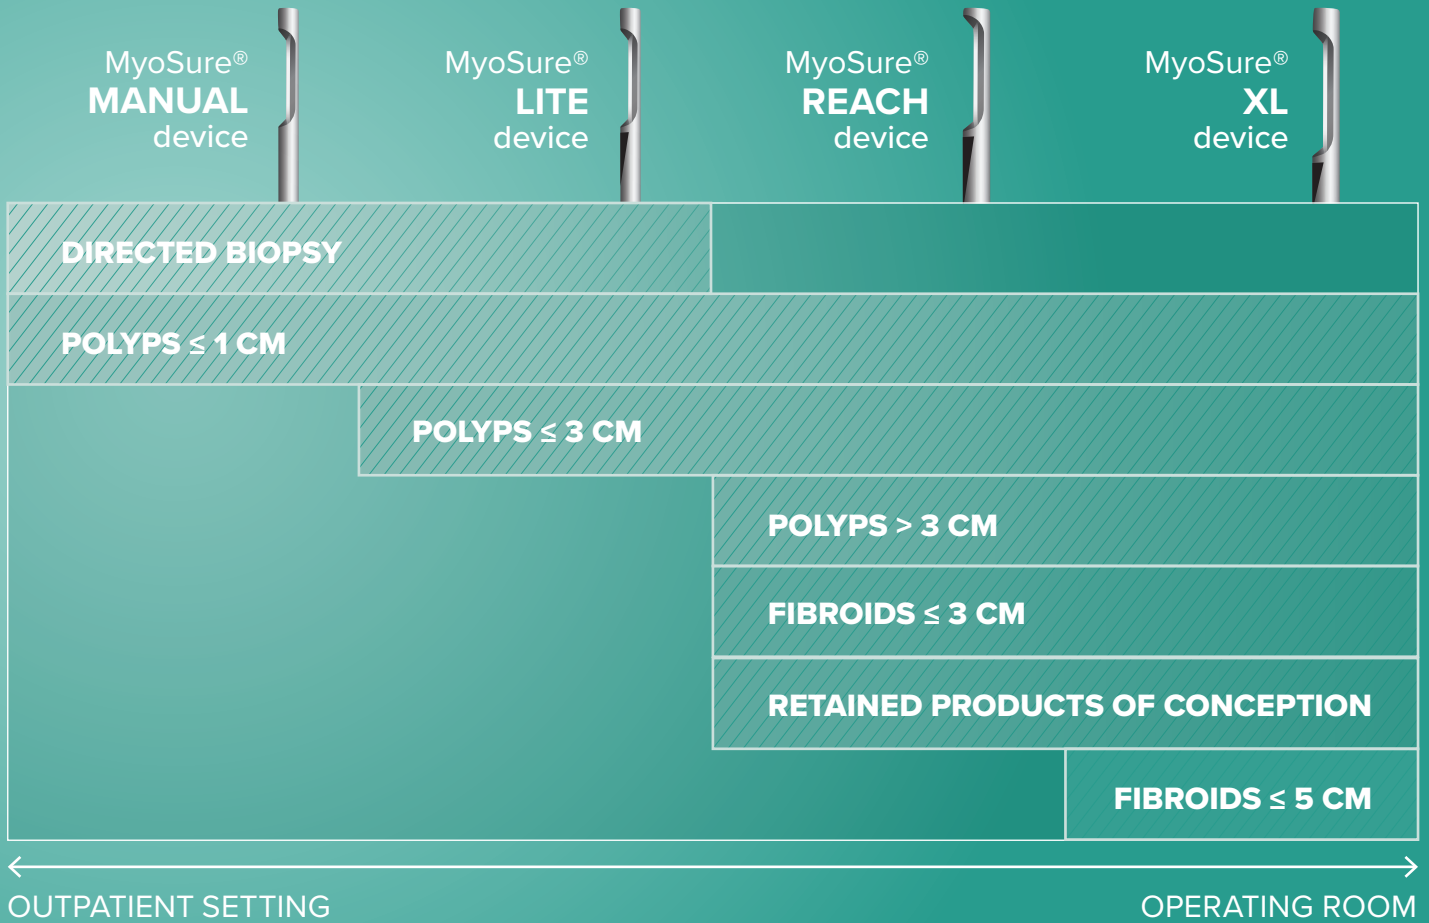

The MyoSure® suite FOR A FULL SPECTRUM OF INTRAUTERINE PROCEDURES

Use the full capabilities of the MyoSure suite to:

- Perform a variety of procedures to help treat a wide range of intrauterine pathology
- Bring efficiency and consistency to your procedural choices
- Have the flexibility to perform procedures in any setting
- Achieve more complete resections and tissue collections

SOLUTIONS FOR A WIDE RANGE OF PATHOLOGY

Simplify the standard of care with the complete MyoSure® tissue removal suite

- Visualise procedures through the high-resolution, rod lens optics of the Omni® Hysteroscope
- Potentially save costs by using the right device for the right intrauterine procedure
- The Fluent® fluid management system is designed to optimise high aspiration procedures such as those performed with a MyoSure® tissue removal device*

Bring efficiency and consistency to your procedural choices—ask for a demo or visit gynsurgicalsolutions.co.uk to learn more

IMPORTANT SAFETY INFORMATION

The MyoSure® tissue removal system, consisting of the MyoSure® tissue removal devices (LITE, REACH, XL) and MyoSure® controller, is intended for hysteroscopic intrauterine procedures by trained gynaecologists to resect and remove tissue, including submucous myomas, endometrial polyps and retained products of conception. The MyoSure® MANUAL tissue removal device is intended for hysteroscopic intrauterine procedures by trained gynaecologists to resect and remove tissue including focal lesions, such as endometrial polyps and retained products of conception. MyoSure® products are not appropriate for patients who are, or may be, pregnant, or are exhibiting pelvic infection, cervical malignancies, or previously diagnosed uterine cancer. For more details on risks and benefits of the MyoSure® system, MyoSure® MANUAL tissue removal device, Omni® Hysteroscope and the Fluent® fluid control system please see their respective IFUs.

*The MyoSure® MANUAL device does not require an automated fluid management system, such as the Fluent® fluid Control system. Additionally, the MyoSure® MANUAL device does not require the MyoSure® controller unit.
