

HOW DO I?

How Do I Change Sites to Order Other Hologic Products?

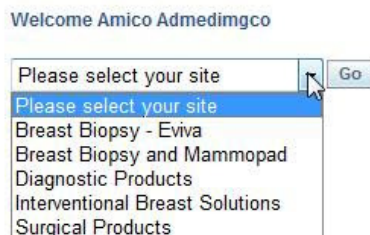

If you need to purchase products from different Hologic product lines and you do not see those items in your iStore site when you login – you may need to change to another store. To do this is very easy – there is a “Sites” link at the top right of every page.

Just click that Sites link as shown below:

And then choose the appropriate product line from the drop down list as shown below:

Specialty Sites

You will immediately be taken to the store you have chosen where you can add additional products to your shopping cart.

Please be aware: When you switch to a different store all the items in your Shopping Cart will travel to the new store with you!

If you do not see the store for the products you wish to purchase please call Hologic Customer Support: (877) 887-8767 to have access added to your iStore account.
