2. The national average 2025 Medicare hospital outpatient rates and status indicators are from the 2025 Hospital Outpatient Prospective Payment System (OPPS) release, Addenda B, and D1 accessible at https://www.cms.gov/license/ama?file=/files/zip/2025-nfrm-opps-addenda.zip. Any payment rates listed are Medicare national averages that may be subject to change without notice and do not reflect payment cuts due to sequestration. Actual payment to a hospital or ambulatory surgical center will vary based on geographic location and may also differ based on policies and fee schedules outlined as terms in your health plan and/or payer contracts.
3. The national average 2025 Medicare rates to physicians shown are based on the 2025 conversion factor of $32.3465 and do not reflect payment cuts due to sequestration. Medicare payment for a given procedure in a given locality in 2024 should be available in the Medicare Physician Fee Schedule Look-up file accessible through the CMS website at https://www.cms.gov/apps/physician-fee-schedule/overview.aspx. Any payment rates listed may be subject to change without notice. Actual payment to a physician will vary based on geographic location and may also differ based on policies and fee schedules outlined as terms in your health plan and/or payer contracts. The national average Medicare rate for Q9967 comes from the October 2024 ASP Pricing File, available at https://www.cms.gov/medicare/medicare-part-b-drug-average-sales-price/2024-asp-drug-pricing-files, and is subject to change in subsequent pricing files..
4. CPT 2025, Professional Edition, advises, "Do not report 96365-96379 with codes for which IV push or infusion is an inherent part of the procedure (e.g., administration of contrast material for a diagnostic imaging study)." Because IV push or infusion is not an inherent part of digital mammography services, it could be appropriate to report this service in addition to a digital mammography code. Consult your payer for its instructions on how to bill for contrast-enhanced mammography.
5. Status indicator "S" means procedure is not subject to multiple procedure discount.
6. Status indicator "Q1" means payment is packaged if billed on the same date of service as a HCPCS code assigned status indicator "S", "T", or "V"; otherwise payment is made through a separate APC payment.

Hologic Inc., provides this coding guide for informational purposes only. This guide is not an affirmative instruction as to which codes and modifiers to use for a particular service, supply, procedure or treatment. It is the provider's responsibility to determine and submit the appropriate codes and modifiers for any service, supply, procedure or treatment rendered.
